PROJECTS

Biriyani Dibe | Crowdsourced Map Platform

Ramadan 2025

- Launched a crowdsourced map platform that reached **100K+ active users** during Ramadan and generated **5M+ media impressions** through nationwide media coverage.
- Optimized the platform through 3 scaling layers, Cloudflare Pages, edge caching, and backend optimization, while adding automated spam protection for high-volume submissions.

Nirapod Dhaka | AI-Assisted Community Safety Platform (Hackathon Champion)

2026

- Created an AI-assisted safety platform connecting 3 stakeholder groups, citizens, police, and city authorities, through real-time hazard reporting and response workflows.
- Integrated 4 core capabilities, GPS reporting, photo evidence, Leaflet mapping, and real-time updates, into role-based dashboards with community verification.

CampusIQ | AI-Powered University Discovery Platform

2026

- Created an AI-powered university discovery platform covering **165+ Bangladeshi institutions** across 4 student decision criteria: GPA, major, tuition budget, and scholarship eligibility.
- Implemented a 2-stage automated pipeline, Python web crawling and AI validation, to discover, verify, and synchronize 2 key data categories, tuition and scholarship information.

GhostCMO | AI-Powered Influencer Discovery & Campaign Planning Platform

2026

- Engineered an AI-driven creator identification engine using semantic similarity, audience demographics, engagement quality, and budget constraints to identify high-fit creators for targeted campaigns.
- Orchestrated 3 AI components, RAG, vector embeddings, and LLM reasoning, to rank creators, generate creator-specific content strategies, and produce explainable marketing recommendations.
